Dear Fran,

Just a note to thank you for the exceptional quality of the redecoration work you recently did to our living and Dining room areas. Being an Architect I am very fussy about detail and the way you protected and retained all the brass fittings and details and handled the complex ceiling mouldings and fireplaces was superb.

We also appreciated the quiet and efficient way in which you worked.

We shall certainly be looking towards using you and your team again in the future.

Best wishes

Graham Francis
